

# YOUR BACKYARD SHED MAINTENANCE CHECKLIST

A SHED THAT IS WELL MAINTAINED CAN LAST MANY YEARS. HERE IS A CHECKLIST TO HELP YOU EVALUATED YOUR SHED AND SEE THE AREAS THAT MAY NEED REPAIR.

---

- Check around the floor and lower siding areas for ants or termites
- Check for wood rot in areas such as lower trim and around the eaves
- Check the hinges and latches for rust and proper operation
- Check the paint on the siding and trim for peeling and fading
- Check the roof for damaged shingles and roof leaks
- Check the doors to be sure they function properly
- Check the plywood on the floor for soft areas and wood rot
- Check the windows to be sure they function properly and aren't broken
- Check the walls to be sure they are straight with no bowing or leaning
- Check the roof ridge line to be sure there is no sagging
